

COSHH ASSESSMENT & HAZARD SUMMARY SHEET

Substance / Trade Name:

Hand Sanitiser

Supplier: Various

Toxic Ingredients	*LTEL	*STEL	**COMMENTS
Alcohol			

Description of Substance: Clear liquid or clear gel

Hazards: This product is a central nervous system inhibitor. First excited, then inhibited.

PPE

			
Gloves	Goggles		

First Aid

Skin Contact	Remove contaminated clothing and rise with plenty of running water.
Eye Contact	Immediately lift eyelids, rinse with flowing water or normal saline, seek medical attention if serious.
Inhalation	Quickly exit the site to fresh air. Seek medical attention if serious.
Ingestion	Drink plenty of warm water and induce vomiting. Seek medical attention.

Storage Conditions: Store in a cool ventilated warehouse. Keep away from fire and heat. The storage area should be equipped with leakage emergency treatment and suitable containment materials

***LTEL:** Long-term Exposure Limit – 8-hour weighted average (TWA) ref period

***STEL:** Short-term Exposure Limit – 15-min ref period

****WEL:** Workplace Exposure Limit

OES: Occupational Exposure Standard

TID: Total Inhalable Dust

RD: Respirable Dust

Substance / Trade Name: Hand Sanitiser

Activity / Conditions of Use: Sanitising hands to reduce the spread of bacteria.

Quantities used: 1 x pump as required

Assessment of risk: Minor risk if used in accordance with guidance.

Recommended control measures: Do not get in eyes. For personal protection see above. Smoking, eating and drinking should be prohibited in the application area.

Spillage Management: Small amount of leakage: Adsorption with sand or other incombustible materials. It can also be rinsed with a large amount of water, diluted in water and placed in the wastewater system.

A large number of leaks: building a dike or digging a pit. Cover with foam to reduce steam hazards. Transfer to a tank truck or special collector with an explosion-proof pump, recycle or transport to a waste disposal site for disposal.

Disposal: It is recommended to use incineration.

This Risk Assessment applies only to this substance when encountered or used in the activity and / or conditions described above. If there is a change in the activity or conditions in which the substance is encountered or used, a new assessment must be made.
